BROOKLYN ITEMS.

THE GREENPOINT CATASTROPHE - THE BODIES ALL RECOVERED.-On Saturday the bodies of Jeremiab B. Elliot and John Rose, who were drowned off the Tenth-street Ferry on Sunday last by the upsetting of a sailboat, were recovered. The former was found in the vicinity of Governer's Island by some of his friends who were searching for him, and the latter by Aaron Pierce, one of the pilots of the Greenpoint Ferry, who found him near the ferry, off Tenth street. The body of Rose was taken to his late residence, in Greenpoint, and his foneral was attended yesterday afternoon by a large number of his friends, and the ship-builders attached to Williams & Co.'s ship-yard, ship-builders attached to Williams & Co.'s ship-yard, of which he was foreman. He leaves a young wife and two children, the youngest but three months old. The funeral of Edict will take place this afternoon at 2 o'clock from his late residence, in Clinton street, near Franklin.

Corner Seell concluded the inquest on the bodies on Saturday evening. The evidence taken went to show that the party left in the boat about 2 o'clock on Sunday afternoon, for the purpose of taking a short sail on the river. They crossed to Sixteenth etreet, sail on the river. They crossed to Sixteenth etreet, with the serial conditions of the sixteen and led says.

SAVAGE—In Jersey City, on Thusday, June 10, William C.
Savage, cnly sen of Elisha C. and Laura M Savage, aged 12 years of the lisha C. and Laura M S

Sunday afternoon, for the purpose of taking a short sail on the river. They crossed to Sixteenth street, New-York, and immediately returned; on nearing the shore at the Point they concluded to cross once more, and put the beat about. As it was coming about a squell struck her and she espeized and filled. Had the party remained quiet they would have been in a position to have met with speedy rescue from the boats from the shore, but becoming frightened in the excitement of the moment, Charles Bassett, John Rose and George Wheeler rushed forward to let down the sails, when the boat turned bottom up and left all strangling in the water. Bassett, Rose and E'liot were drowned. William Hays, one of the survivors, testified that he saw Bassett and Elliot together, the former being uppermost, and Rose about ten feet behind striking o r the shore. Boats arrived to the rescue about ten mirutes after the accident. The Jury rendered a verdiet of " Accidental drowning."

Bodies Recovered in the Rivers.—The hody of fenale about five feet in hight, stout, fair complexion and lack hair, under with the exception of a chemise, pair of thite stockings and surters, was piexed on in the atteam in Saturday evening and fastened to Thompson's dock. She was benified as the young woman who committed shields sime time to Saturday evening and lastened to Knompson and the contributed at the young woman who committed suicide some time last week by jumping off one of the Houston street ferry-boats. Coroner Redding held at inquest, and her friends took her is

rarge. The body of a man about 60 years of age, was picked up off the

Suicine .- A man named Robert Lee, residing at No. 16 Sometic street, committed united yesteday by evering the jurelar vein with a jack knife. He had been separated from his tentive for a number of years in consequence of discipated habits. He had threatened for some time past. Curoner Redding neith an Inquest and a verdict of death by spiritde, was rendered. The decreased was a native of London and 53 years of age. He was a cabinetimaker by trade.

FOUND DROWNED,-Yesterday morning, the body FORN PROWNED,— resterday morning, the body of an unknown man was found flasting in the East River by Beat No. 4 of the River Police, and towed to the foot of South Eleventh street, where an inquest was held by Coroner Suell, and the body sent to Flashuah, where it will remain for three days for identification. It was that of a min about fifty years of ag, five feet aix inches high, deresed in ribbed gray pants, caffain boots, figured dark vext, broadcloth coat; had brown heir, alignity hald, and whiskers under the chin. Hat been some ten days in the water. On the person were found two knives, a carpenter's rule, a pocket-book, and half a spectable case.

in the water at the foot of Dikeman street on Saturday, five feature inches in hight, black hair and whiskers, and apparent about 45 years of age. He had on a black to oth sait. In his posts were found a knife and a bunch of keys, and a receipted by for \$2.40, for bardware purchased of May, Sadwin & Man No. 48 John street, New-York. The body lies at the dead-hom for scientification. FOUND DROWNED .- The body of a man was found

FATAL ACCIDENT .- Mr. Henry Tappey, residing at No. 55 Lecture street, died on Friday night from injuries reserved in the morning by falling from a wagen in Graham avone, near Memorrose avenue. He was a baker, and in jumping from the wagen feil and austained severe injuries about his head, which cannet his death. Coroner Such in id an injurest, when a verdict of Accidental death was condered.

LIGHTNING .- The chemical works of Martin Kalb-Sleisch, and, at Bushwick, were struck by lightning on Friday night, but no damage was done, mave the displacement of a few bricks in the chimney. The building shock violently from the effects of the shock.

SATURDAY, June 12-P. M. The first public responses from England on the "Outrage question," as reported by the Nova Scotian, were welcomed with great satisfaction in Wall street, conveying as they do the pacific sentiments of that Government, and leading to the belief that the aggressions upon our commerce will be promptly disavowed. The strong probabilities of an early settlement of the difficulty gave increased strength to the rallying movement of the stock market which commenced on Friday, and it was not only evident that outsiders were in much stronger force as buyers, but that the shorts were considerably alarmet, and were disposed to cover The Courts.—The Court of Oyer and Terminer will open this merning at 10 o'clock before Judge Strong, presiding, when the trial of Patrick Laily will be called on.

The Circuit Court will be opened at 11 o'clock this morning by Judge Lott, when the calendar will be taken up.

An edysamed Circuit Court will be held on the 6th day of July next, for the trial of issues of issues of issue and issues of feet, triable without a Jury, in the following cases: 1. In forciount cases. 2. It is forciount cases. 2. It is forciount cases. 3. It is forciount cases. 4. It is forciount cases. 4. It is forciount cases. 5. In forciount cases. 5. It forcio

regular steck, and although slightly lower after the of it. call, was firmer and better again between the sessions About 3 o'clock on Sunday morning, a firs broke out in the whotoer and point manufactory of C. M. & A. I. Baxter & Co., in Marsaul street, near Hardson avonce. There was a brick builting and several drying houses. The brick builting and several drying houses. The brick builting contained the machinery and much of the stock, and was mostly destroyed with its contents, and the drying houses were greatly damaged. The loss is estimated at not less than \$10,000, upon which there was an insurance of \$1,900 in each of the following Companies: Williamsburg City, Excelsior. Nassau, Rahef, Hamiton, St. Nicholas and Prenix—making the whole amount of issurance \$13,700. The fire is supposed to have originated by accident from the furnace.

There was an alarm of fire on Saturday afternoon, which was caused by the burning of a chimney in the Eighth Ward. of the Board. Erie advanced to 171, with but moder the new ticket. Michigan Southern common and preferred shares were both better, and quite ster dy throughout the session, without especial are svity. Hudson River, Toledo and Galera participated in the rising movement, and indicated the same of firmness noticed in other stocks, but were not promineut in the movements. Milwaukee and dissistippi advanced to 21 on sales of 180 share s, and appears to be recovering in market prices almost as rapidly as it declined. The May receip's will footup over \$36,000, a very handsome result 's compared with the same month of last year. De ware and Hudson was offered at 96, seller thirty, b at there were no registered trausactions during the say. Some of the shops and machinery of the Company at Carbondale were destroyed by fire on the 9th inst.; lose estimated at \$50,000. The isquirt, for our city avenue Railroads continues, and price aure firmer. 92 was bid for Second Avenue this more many; no stock offered under 95; the shares are daing in anticipation of a dividend in July. A the Second Board there was still further improvement, but no great activity. Immediately after the adjournment, fresh orders appeared to be attracted by the continued firmness in prices, and an advance of ; to it cent was established in several of the leading stocks-the whole market closing steady. The demand for State Stocks continues good, and prices are gradually moving up. Mussouri 6s advanced to 87 during the day, and Tennersees were sold at 93 in the afternoon. In Railroad Bonds the trade is builted, and in some instances we notice a material decline. Erie securities are particularly heavy. La Crosse Land Grants declined to 30. The closing prices for the day were for Eris, 17] #1; New-York Central, 814 #82; Hudson River, 262 #27; Rending, 424; Michigan Sonthern, 224 #4; Preferred, 43; Toledo, 344 #25; Rock

> berland, 19 a 20. The foreign bill market closed dull and heavy. Ster-

ling 84 294. France 5.164 25.134. Freights are less active, owing to the storm; rates are a shade firmer. To Liverpool, the engagements are 1,500 bbls. Flour at 1s. wls. 9d.; 20,000 bush. Grain in bags at 61d.; 20 boxes Bacon at 20a.; 400 bales Cotton at 1d.; 350 boxes Cheese per steamer at 50s.; Whalefoots per vessel at 20s. To London, 275 tes. Beef at 4s. ats. 6d., the higher rate for India Beef; 10 bexes Bacon at 20s. To Glasgow, 100 tes. Beef at 4s. 6d.; 2,000 bbb. Flour at 2s. To Rotterdam, 3,000 bbls, Rosip at 2s 9d. A vessel from here to Windward Islands, with 1 500 bbls., at 47c. A vezsel of 300 tuns, out and home from the Maditerranean, on private terms.

at the Merchants Exchange.

The amount of bids for the new Treasury Notes-\$1,000,000, to be awarded on Monday-are very large, reaching at this point nearly \$22,000,000. Two bids, at least, were made for the entire amount each. The

rate of interest bid is about 4] 4' cent. The warfare now so indiscriminately waged against Railway stocks at the Board, though resulting in the temporary decline of every road on the list, cappor be prejudicial in the end, because those which have real merit will, in the natural course of events, develop this fact to plainly as to insure their speedy recovery, while those which are really worthless, or which possess at the best a prospective value, and very distant at that, will remain in the rank of deprecisted and doubtful securities, where they should have been long since. We shall thus have a winnowing of the wheat from the chaff, and secure what will be of great advantage to Railways already constructed, viz: future immutity from one of the greatest evils which has beret the Railway system of the country, viz: that of building competing lines, which in the insanity of enterprise has been not only permitted, but encouraged by men of capital throughout the country, with an utter disregard of com

mon sense, and an entire lack of common shrewdness. We refer not only to lines running parallel to com pleted works for entire distances, but to the building o branch roads, to head off competition; serving, how ever, neither to check the rival enterprise which is i progress nor to aid the old line, but rather to draw in juriously from the resources of both. In such val experiments have splendid natural routes like th Michigan Southern and the Galena wasted their strength, piling up in the one case an enormous debt t buy the original shareholders, and in the other reducin net earnings from 20 to 25 \$\psi\$ cent down to 10 or 12. To this pernicious evil do we owe a great deal of the railway reverses of the country, and it seems almost necessary to inflict the severe lessons we have received, that our eyes may be fairly opened to the folly of a system which invites us not only to witness the de-

Friday. New-York Central want up to 811 for struction of our own property, but to pay the expense

The notes of the James Bank and Bank of New Rochelle, N. Y., must be press ated to the Bank Department, Albany, on or before the 17th instant. The

that and ing circulation of Γ_{rese} backs is about \$12,340. We understand that s_A the recent election of the Terre Haute and Alton Road, Mr. Edwin C. Litchfield

of this city was elect of President.

Mr. Charles F. V conter has been elected President. of the People's sank.

The injunct on against the Woodbury Bank, Conn., as been started, and a receiver appointed. We he are received a copy of the annual report of the

Cant on Company of Battonore. It is devoted mainly to the affairs of the Northern Central Railroad, which has not yet made its connection with the Canton property, by reason of a difference with the City Councils. From this connection the Canton Company anticipate large advantages. The Company now own one thousend shares of its own stock, and it is intended to invest all its receipts after the payment of expenses, &c., in the purchase of stock, thus gradually liquidating the Company. The statement for the year is as follows: RECUPTS of the Canton Company of Haltimore, for the year ending May 31, 1838.

Rents of dwellings and farms. \$2.275.08.

		ALCOHOLD	1004

The business of the Clearing-House to-day was \$15 201 262, which is smaller than the average of late. The following are the receipts of the Morris Canal for the week and season, to the 1st inst., as compared with the corresponding time last year:

Total to May 50, 1857. 3 955 914 35

Week cating June 6, 1857 3 969 96

Total to May 29, 1858. \$783 91

Week ending June 5, 1858. 8 783 91

crease in the amount of spece held by the Bank of France, with a decrease of loans. The English return for the corresponding date is a decline in specie. At the same date, however, the banks here held their

Total., 16 743,090 189,292,491 203,634,273 218,063,696 231,569,966

The aggregate is a further rise of \$13,000,000 in the amount of specie in the banks. The whole accumulation since October has been \$144,800,000, or three years' produce of California.

The Cahawta to-day took \$200,000 in specie for

New Orleans, and about half a million has gone South during the week to assist the banks in sustaining specie payments.

The Express of this evening says:

The Park Bank (redeeming agent), throws out the atchfield Bank, Conn., this atternoon. There is no sale for their notes.

The contracts for the work on the Sunbury and Erie

Railroad from Williamsport to Farrandsville, Pa., 33 miles have been made. The Anthracite Coal trade is duil. The Reading tunnage for the week is 26,061, and the Canal 27,394. The decrease for the season is about 200,000 tuns on

it e Radroad, and the Canal 70,000 tuns.

The Providence Journal says: A good deal of surprise was created by the adver-A good desi of surprise was created by the advertisement which appeared yesterday, to the effect that the Directors of the Providence and Worcester Railroad Company had reviked all the power heretofoce conferred on the President of the Corporation.

The reasons of this vote have not transpired officially, but it is understood that there has been a difference of opinion between the President and the Directors and the conferred to the conferred t

23.341 the Directors in favor of making larger dividends, and the Directors in favor of spelying larger dividends, and 3.621 the earnings to the repairs of oridges and maintenance 21.690 of the road.

Other differences in regard to the management of the road arose, and the Directors passed a vote re-questing the President to resign. This he declined to do, and then the Directors passed the vote that has been published.

The Nashedle (Tenn.) Banner of the 8th save: "We are indebted to one of the Legislative Inves-

"We are incented to one of the Legislative loves-tigating Committee for a statement of the books of the late Secretary of State, which shows that officer a de-faulter in the sum of \$15,211-61."

The Star of the West, from Aspinwall, brings nearly a

million and a balf of gold to swell the Bank averages. The advices from California are not very important. Merchandise was moderately active. The Shipping

The only item of interest in connectifi with the gold product of our coast consists in the further intelligence received from the diaglogs recently discovered on Frazer and Thompson Rivers. We should judge that some 2,000 persons have left California for that region, while there are numbers in almost every section of the State busily preparing to move on the receipt of the news of access to the mining grounds being had by either the river or land toutes from Paget Sound. There is no disagreement upon the surject of the gold being there in abundance. Some receipts of the dust have come to hard, the appearance of such parcels being precisely similar to those of the early parcels being precisely similar to those of the early placer diggings in California.

Nothing has occurred with us to interrupt the very

Nothing has occurred with us to interrupt the very favorable anthopations of the season's productiveness of our own mines. Gold dust has come in more freely during the forthight and modely is in abundant supply, requiring no change to be noted from our last quotations of current rates. Bars of 880 line are freely offered at \(\frac{1}{2} \) the cunt off. The supply of Mexican Dollars is more times simple and rates nominal. is more than ample and rates nominal.

SHIPMENT OF TREASURE.
To May 15, 1851.
To May 15, 1857. Excess in favor of this year. \$228.39)
The operations of the W. S. Branch Mint in this city from May let to lich were as follows:
DEPOSITS.

seems now in a greater or less degree to recognize for an established principle that, as banks of issue are but creatures of the law-making power, it is a duty from which there is no honorable retreat, that the same power should also provide adequate guards and provides for the security of the bill-holder. What is the best basis for such security, is, however, a question upon which there exists, we think needlessly, a wide diversity of opinion. Our own system has been in active practical operation for a period of about eighteen years, and, netwithstanding the gross imperfections which in its early years were discovered and awanded we are bold in the allegation that a less from which there is no honorable retreat, that the fections which in its early years were discovered and amended, we are bold in the allegation that a less amended, we are bold in the allegation that a less percentage of lose has occurred under it taan under the system of any other Northern State. Indeed, with a few exceptions, we deem the system as perfect as can well be devised. We of course will not be understood to approve the mortgage element of the system, as we have so frequently urged upon the Legislature the duty of excluding them wholly that we think it unnecessary to retterate here our objections to that feature. The chief requisites for a security basis are undoubted intrinsic value and ready convertibility, coupled with steadiness of quotation.

The stock element of our basis fully comprehends there requisites, and the records of the bask will show that during the financial typeon of last October this clement proved indeed a bower-ancher of safety's the majurity of our nourry banks. Under it they were on this diverge in the provision of their circulation to command immediate relief, at a price, too, for their securities which triumphantly established the wisdom which dictated the provision. The maximum figure of depression for treese stocks was but about 10 % cert, while corporate, railroad and miscellaneous contrivances, their tofore considered good investments, rushed with eagle swoop down, down, down, 20 % to be cent.
